

*In the final days of
a political campaign
anything can happen.*

*Unfortunately, this year voters have
already been subjected to a negative
smear campaign that twisted and
distorted my record in a desperate
and cynical attempt for votes.*

*And now, in the final days, we've
been warned that more is on the way.*

*If you have any question about my
record or where I stand, please, don't
hesitate to call me at home 425-339-2332.*

I'd be happy to set the record straight.

**Aaron
Reardon**
for County Executive (D)

425-339-2332 | www.aaronreardon.com

Here we go again. A group of developers have poured almost \$50,000 into a new Political Action Committee. And they've hidden behind the rather benign and pleasant sounding name *Ciizens Campaign Committee* in an attempt to disguise both their identity and intentions.

This committee, in reality, is composed of some of South Snohomish County's most notorious developers intent on turning Paine Field into a major regional airport.

This would have lasting and devastating impacts to our quality of life in *Mukilteo, Bothell, Mounlake Terrace, Lynnwood and Edmonds* and I have consistently opposed this excessive expansion throughout my career in the Legislature.

Needless to say my position doesn't sit well with those who would benefit—and profit mightily from a “*South Snohomish County Sealac*.” They want someone in the County Executive's office who's willing to do their bidding. So now, with a new disguise, they're coming at me again.

When they do, follow the money. And consider the source.
